

## PERSONAL STATEMENT

I'm a 29 years old Software Developer from Dronten(The Netherlands) currently based in Maarssen. I love everything that has to do with Web development, Mobile application development and design and development of web applications.. I have 12 years of experience creating web applications of which 8 years professional and 4 years of experience creating Android applications of which 2 years professional.

The last 2 years I've also been leading and managing a web development team of 4-6 team members consisting of interns, juniors, and senior web developers. I have a specific passion for software architecture and designing it, and still have a weakness for JAVA which i still use for Android application development.
